

Extend the life of your Rhino Pneumatic Post Driver with a **FRL** Filter-Regulator-Lubricator

For your PD-45, PD-55, PD-110, PD-140
PD-200 Post Drivers

Rhino's FRL and Carrier is a compact, lightweight, easy to use system for filtering, regulating and lubricating air leaving your compressor. It is highly recommended that a FRL can help to avoid damage to downstream equipment. The Rhino FRL is custom designed for optimal efficiency with Rhino's Pneumatic Post Drivers insuring minimal maintenance and reduced downtime over the life of the tool.

- Easy to attach to general use compressed air systems.
- Filter component improves high moisture removal efficiency.
- Filter extends the life of downstream equipment.
- Filter reduces contaminant related equipment failure.
- Accurate pressure regulation.
- Steady atomizing mist lubrication during air flow.
- Non-detergent or non-synthetic oil recommended.
- Rhino FRL maximizes compressor efficiency when supplying Rhino Pneumatic Post Drivers.
